

City of Duncan

Sanitary Sewer Rehabilitation Phase 1

The City of Duncan is working to construct important improvements to the sanitary sewer system in your area. Work generally includes rehabilitation and replacement of sanitary sewer manholes, 8" to 15" gravity sewer pipes and service lateral connections. Phase 1 will be split up into three separate construction contracts – 1A, 1B, and 1C.

PROJECT BOUNDARIES:

- North: West Elder Ave
- South: West Mulberry Ave
- East: North I St
- West: North 27th St

WHAT'S BEING DONE?

- Open cut replacement of sanitary sewer mains and manholes
- Pipe bursting of sanitary sewer mains
[Pipe Bursting Technology - YouTube](#)
- Manhole rehabilitation, including casting replacement, cementitious lining, and bench/channel repair
- UV Cured-In-Place Pipe (CIPP) Cured-in-Place Piping
[UV CIPP Information - PUCC.org](#)
- Rehabilitation and replacement of service lateral connections (first 18 in)

WHAT CAN YOU EXPECT?

We appreciate your support and patience as we work to complete this project. Customers will be notified in advance of pending activities and disruptions, which may include:

- Public meeting to inform property owners and businesses of the activities taking place and the project schedule
- Multiple construction crews working in the area
- Temporary street closures

WHO'S DOING THE WORK?

The City of Duncan, Oklahoma will be assisted by Tetra Tech, CEC, Portland Utilities Construction Co., PM Construction & Rehab, and Horseshoe Construction, Inc.
